

Are you interested in:

- Linux and open source software?
 - * We run about 40 Linux systems
 - * We actively advocate for alternate OSes and free software
- Providing useful computing services to the campus community?
 - * We run www.contrib.andrew.cmu.edu
 - * We provide a USENET news server
 - * We host the campus wiki
- Tinkering with "retro" computing hardware?
 - * We have a few VAXen, and a VMS cluster
 - * Many of our services run on DEC Alphas
- Hacking on a programming project?
 - * We have a few of our own, and can provide assistance and hardware if you have one

Want to learn more?

- Visit our website, www.club.cc.cmu.edu
- Read our bboard, cmu.student.computer-club
- Email us, info@club.cc.cmu.edu

Want to get involved?

- Come to our discussion meetings (see website for time and location)
- Visit our machine room, CyH B6, Saturdays at 6pm
- Attend an event (watch for flyers, or look for a message on the bboard)
